Systems Design
Engineering

226-972-2838

I'm a "big-picture" problem solver; always looking for the best solution to the right problem. I'm someone who will rise to a challenge and will get the job done. My engineering education, and skills in user-centred design, human-factors, and front-end development allow me to approach complex problems from a unique perspective, specifically when designing and researching at Noom, KnowRoaming, and Sony.

Summary

- Over 1 year experience in UX and Product design
- Product Management experience researching, developing and prioritizing user & tech requirements
- Pitching and presenting my own designs at all-hands meetings, backing them up with user-research data, and following through with a plan for implementation
- Collaborating and brainstorming design solutions with designers, developers, operations, and marketing

Work Experience

Product Manager (Poker) at Zynga

Spring 2016 in Toronto, ON

- Designed the initial user experience wireframes and feature specifications for a hand replay feature expected to increase DAU
- Performed background research, user analysis, and A/B testing as part of the design process for a new Subscriptions model
- Configured final tuning parameters and UX flow for a viral engagement feature which increased Facebook feed app entry by 36%
- Managed, analyzed, and reported on key metrics for various in-app experiments

Product Designer at Noom

Fall 2015 in New York City, NY

- Leveraged user testing results to re-design the meal-logging experience, improving clarity, speed of navigation and to better reflect the common mental model of logging food
- Prototyped and iterated interaction designs using Sketch, Framer JS, and Origami, and tested using Usability Hub and UserTesting.com
- Enhanced the food portion picker interface to improve user confidence when logging food items
- Initiated multidisciplinary collaboration with all stakeholders to better understand product requirements, and managed the early design process for the coach dashboard

Product Designer at KnowRoaming

Spring 2014 & Winter 2015 in Toronto, ON

- Redesigned both iOS and Android apps from the ground up. I reworked everything from the registration workflow, to the in app experience at home and abroad using the KnowRoaming SIM Sticker.
- Designed and prototyped a retail stand for dispensing product boxes and displaying product information in retail stores.
- Designed and developed the KnowRoaming Athletes sign-up page using HTML5, CSS3, CoffeeScript and PHP.
- Storyboarded, and animated an app intro video for the updated KnowRoaming app

Projects

Audity

Sept. 2016 - present

Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat.

- Team lead & project manager

SMRT WATR

Spring 2015

An interactive fountain with dynamic water spouts controlled by an Arduino, connected via a Raspberry Pi to enable users to play a quiz game with the fountain, which reacted to the quiz responses

- Designed the game interface, and app architecture
- Developed the web-app front-end, and a portion of the Python server
- Designed a mechanism to allow the servo motor to rotate the fountain jet

Colour Thermometer

Winter 2015

A web app that represents the current temperature, weather conditions and time as an HSV colour.

Say No To Comic Sans

Spring 2013

A Chrome extension that scans a webpage for Comic Sans, and replaces it with Helvetica.

Toolbox

Framer

Origami

Sketch

Balsamiq

HTML

Photoshop

CoffeeScript

Arduino

jQuery

PHP

Education

University of Waterloo, BSc. Systems Design Engineering, Minor in Cognitive Science
